- English (Intermediate)

COURSES

Frontend Developer

Mate Academy

Git, HTML, CSS, JavaScript, TypeScript, React, Web Development

PROFILE

I'm a Frontend Developer proficient in **HTML**, **SCSS**, **JavaScript**, **React**, **TypeScript**, **Redux**, **Next.js**, and **Git/GitHub**.

I build responsive, accessible, and maintainable interfaces with attention to detail.

I contribute to product growth by delivering clean, scalable UI. I care about writing maintainable code, improving team workflows, and creating interfaces that are both functional and intuitive.

EXPERIENCE

Frontend Developer, Charity Lab Foundation

April 2025 - Present

- Working with Next.js, TypeScript, and Tailwind CSS
- Developing responsive UI components based on Figma designs
- Collaborating with a team using Git and GitHub
- Reviewing pull requests and participating in daily stand-up meetings
- Following best practices for code quality and accessibility

Projects
